

# Clinic in the Park

Team CitP

Eddie Duong, Eric Acampora,  
Hugo Polanco, Ka Lun Lee

# For this Quarter

- Finished website for Clinic in the Park.
- Developed database prototypes and mock-up.

# Challenges

- Access to server
  - Made some progress, the webmaster responded to our project sponsor.
- Transportation

# Greatest Achievement

- Learning how to use HTML forms and MySQL to store data in a database.
  - Still really incomplete.

## Create A User

Name  Description

# Rest of the Quarter (Group)

- Finalize HTML form and database functionality.
- Hopefully begin working on GUI .
- Fix any website bugs.

# Rest of the Quarter (Individually)

- Continue learning pHP, MySQL, CakePHP.
- Continue working on sprint tasks.

# Plan for the Summer (Group)

- Actually come up with a plan for the summer.
  - Have not discussed as a group about summer work.
- Have weekly meetings team meetings and continue bi-weekly project sponsor meetings through Google Hangouts.

# Plan for the Summer (Individual)

- Expand current programming knowledge.
  - Work on small individual projects for the sake of learning and gaining mastery.
- Fill in group members with progress.
- Come up with better ideas for GUI design.

# Plan for Fall Quarter

- Finalize GUI design.
- Have client information be retrieved and displayed in an easy to read format by both visitors and staff.
  - Pretty much finish implementing the GUI on the website.
