

Clinic in the Park

Eddie Duong, Eric Acampora,
Hugo Polanco, Ka Lun Lee

Why, Who, What?

- Need efficient way to track visitor information at Clinic in the Park, and provide access to that information to visitors.
- CitP Visitors and Staff Members
- Database, GUI, and underlying functionality

The Last Two Weeks

- Re-designed CitP passport.
- Updated website content.
 - Added Twitter feed, Youtube video, and calendar system.
 - MailChimp subscription system.
- Created Visitor Portal tab for future database access.

Difficulties

- Transportation
- Server access
- Client wanting a different passport design

Greatest Achievement

- With our client, we have reevaluated the website based on their expectations.
 - User-Friendly Event System
 - MailChimp Integration
 - Social Media Integration
 - PayPal integration
 - Visitor Access Portal (eventual database connection)

[Clinic in the Park](#)

For the Next Two Weeks

- Week 7
 - Designing database with finalized requirements
 - Training CitP Team on website management
 - Launching website
- Week 8
 - Building database
 - Beginning work on access GUI

Thank You!
