Clinic in the Park

Team CitP

Eddie Duong, Eric Acampora,
Hugo Polanco, Ka Lun Lee

Why, Who, What?

- Need efficient way to track visitor information at Clinic in the Park, and provide visitors access to that information.

- CitP Visitors and Staff Members

- Database, GUI, and underlying functionality

The Last Two Weeks

- Developed very basic GUI for CitP staff to access database.

- Database Structure
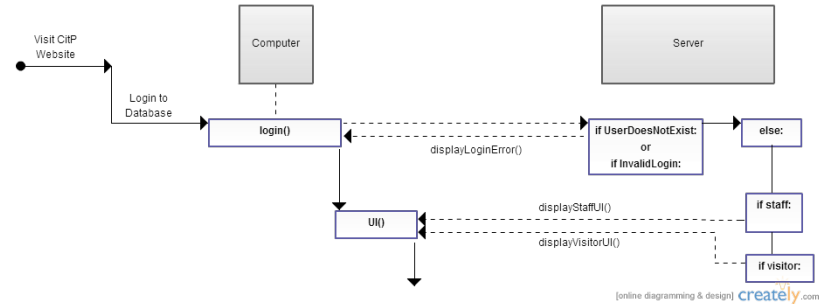

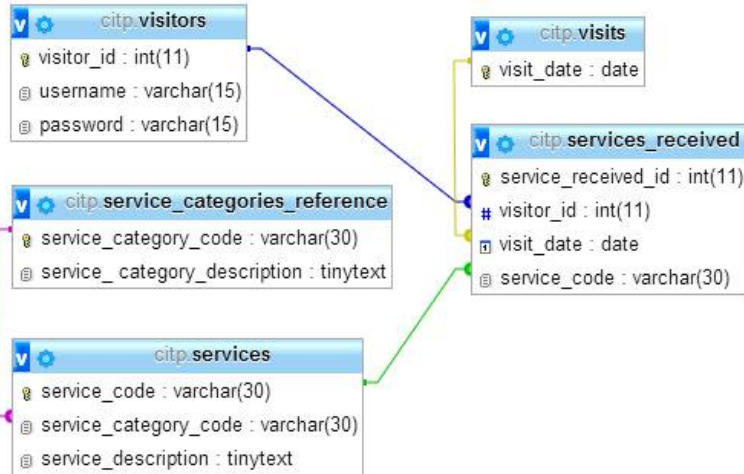

- Beginnings of Sequence Diagram

Difficulties

- Still do not have server access.
  - Webmaster with access does not respond to project sponsor emails.

Greatest Achievement

- ## Completion of database.
  - ### Flexible tables to track CitP visitor data.

For the Next Two Weeks

- Week 9
  - Finalize GUI design/implementation.
  - Have GUI successfully connect to database.
  - Re-visit work done and fix any problems.

- Week 10
  - Showcase current progress to project sponsors and get feedback.

Thank You!
